<Material information>

This materials information shows the amount of hazardous materials contained in

| Amount | Unit |
|--------|------|
| 1      |      |

| Table  | Material name                   | Threshold level              | Present above threshold level | If yes, material mass |      | If yes, information on where it is used |  |
|--|---------------------------------|------------------------------|-------------------------------|-----------------------|------|---|--|
|  |                                 |                              | Yes/No                        | Mass                  | Unit |   |  |
| Table A<br>(materials listed in appendix 1 of the Convention)    | Asbestos                        | no threshold level           | No                            |                       |      |   |  |
|  | Polychlorinated biphenyls(PCBs) | no threshold level           | No                            |                       |      |   |  |
|  | Ozon depleting substance        | Chlorofluorocarbons(CFCs)    | no threshold level            | No                    |      |   |  |
|  |                                 | Halons                       |                               | No                    |      |   |  |
|  |                                 | Other fully halogenated CFCs |                               | No                    |      |   |  |
|  |                                 | Carbon tetrachloride         |                               | No                    |      |   |  |
|  |                                 | 1,1,1-Trichloroethane        |                               | No                    |      |   |  |
|  |                                 | Hydrochlorofluorocarbons     |                               | No                    |      |   |  |
|  |                                 | Hydrochlorofluorocarbons     |                               | No                    |      |   |  |
|  |                                 | Methyl bromide               |                               | No                    |      |   |  |
| Bromochloromethane   | No                              |                              |                               |                       |      |   |  |
| Anti-fouling systems containing organotin compounds as a biocide | 2,500 mg total tin/kg           | No                           |                               |                       |      |   |  |

| Table   | Material name   | Threshold level    | Present above threshold level | If yes, material mass |      | If yes, information on where it is used |
|---|---|--------------------|-------------------------------|-----------------------|------|---|
|   |   |                    | Yes/No                        | Mass                  | Unit |   |
| Table B<br>(materials listed in appendix 2 of the Convention) | Cadmium and cadmium compounds                         | 100 mg/kg          | No                            |                       | Unit |   |
|   | Hexavalent chromium and hexavalent chromium compounds | 1 g/kg             | No                            |                       | Unit |   |
|   | Lead and lead compounds                               | 1 g/kg             | No                            |                       | Unit |   |
|   | Mercury and mercury compounds                         | 1 g/kg             | No                            |                       | Unit |   |
|   | Polybrominated biphenyl (PBBs)                        | 1 g/kg             | No                            |                       | Unit |   |
|   | Polybrominated diphenyl ethers (PBDEs)                | 1 g/kg             | No                            |                       | Unit |   |
|   | Polychloronaphthalenes (Cl >= 3)                      | no threshold level | No                            |                       | Unit |   |
|   | Radioactive substances                                | no threshold level | No                            |                       | Unit |   |
|   | Certain shortchain chlorinated paraffins              | 10 g/kg            | No                            |                       | Unit |   |
| Annex II***<br>(Additional materials)                         | Perfluorooctane sulfonic acid (PFOS)                  | 10 mg/kg****       | No                            |                       | Unit |   |
|   | Brominated Flame Retardant (HBCDD)                    | 100 mg/kg          | No                            |                       | Unit |   |
