

No:2020-117

Date: 28.01.2021

TO WHOM IT MAY CONCERN

According to MEPC 269(68) Paragraph 3,

For loosely fitted equipment, there is no need to list this in part I of the Inventory. Such equipment which remains on board when the ship is recycled should be listed in part III“

3.3.1 Materials listed in Table B that are inherent in solid metals or metal alloys, such as steels, aluminum, brasses, bronzes, plating and solders, provided they are used in general construction, such as hull, superstructure, pipes or housings for equipment and machinery, are not required to be listed in the Inventory.

3.3.2 Although electrical and electronic equipment is required to be listed in the Inventory, the amount of hazardous materials potentially contained in printed wiring boards (printed circuit boards) installed in the equipment does not need to be reported in the Inventory.

According to MEPC 269(68) Paragraph 6,

Suppliers to the shipbuilding industry should identify and declare whether or not the materials listed in table A or table B are present above the threshold value specified in appendix 1 of these guidelines. However, this provision does not apply to chemicals which do not constitute a part of the finished product.

Small packaged Chemical products such as cleaners or supporting chemicals are not part of IHM part I,

Please consider this information when MD's are requested from suppliers.

Respectfully submitted
