

# Form of Material Declaration

<Date of declaration>

|      |  |
|------|--|
| Date |  |
|------|--|

<MD ID number>

|           |  |
|-----------|--|
| MD-ID-No. |  |
|-----------|--|

<Supplier (respondent) information>

|                  |  |
|------------------|--|
| Company name     |  |
| Division name    |  |
| Address          |  |
| Contact person   |  |
| Telephone number |  |
| Fax number       |  |
| E-mail address   |  |
| SDoC ID-No.      |  |

<Other information>

|          |  |
|----------|--|
| Remark 1 |  |
| Remark 2 |  |
| Remark 3 |  |

<Product information>

| Product name | Product number | Delivered unit |      | Product information |
|--------------|----------------|----------------|------|---------------------|
|              |                | Amount         | Unit |                     |
|              |                |                |      |                     |

<Material information>

|   |      |  |
|---|------|--|
|   | Unit |  |
| This materials information shows the amount of hazardous materials contained in | 1    | (unit: piece, kg, m, m <sup>2</sup> , m <sup>3</sup> , etc.) of the product. |

| Table  | Material name  |                              | Threshold level           | Present above threshold level | If yes, material mass |      | If yes, information on where it is used |
|--|--|------------------------------|---------------------------|-------------------------------|-----------------------|------|---|
|  |  |                              |                           | Yes/No                        | Mass                  | Unit |   |
| Table A*<br>(materials listed in appendix 1 of the Convention) | Asbestos   |                              | 0.1% <sup>19</sup>        |                               |                       |      |   |
|  | Polychlorinated biphenyls (PCBs)                                 |                              | 50 mg/kg                  |                               |                       |      |   |
|  | Ozon depleting substance   | Chlorofluorocarbons (CFCs)   | no threshold level        |                               |                       |      |   |
|  |  | Halons                       |                           |                               |                       |      |   |
|  |  | Other fully halogenated CFCs |                           |                               |                       |      |   |
|  |  | Carbon tetrachloride         |                           |                               |                       |      |   |
|  |  | 1,1,1-Trichloroethane        |                           |                               |                       |      |   |
|  |  | Hydrochlorofluorocarbons     |                           |                               |                       |      |   |
|  |  | Hydrobromofluorocarbons      |                           |                               |                       |      |   |
|  |  | Methyl bromide               |                           |                               |                       |      |   |
|  |  | Bromochloromethane           |                           |                               |                       |      |   |
|  | Anti-fouling systems containing organotin compounds as a biocide |                              | 2,500 mg total tin/kg     |                               |                       |      |   |
|  | Anti-fouling systems containing cybutryne                        |                              | 1,000 mg/kg <sup>20</sup> |                               |                       |      |   |
| Annex I**<br>(materials listed in the EU SRR)                  | Perfluorooctane sulfonic acid (PFOS)                             |                              | 10 mg/kg***               |                               |                       |      |   |
| Table B*<br>(materials listed in appendix 2 of the Convention) | Cadmium and cadmium compounds                                    |                              | 100 mg/kg                 |                               |                       |      |   |
|  | Hexavalent chromium and hexavalent chromium compounds            |                              | 1,000 mg/kg               |                               |                       |      |   |
|  | Lead and lead compounds  |                              | 1,000 mg/kg               |                               |                       |      |   |
|  | Mercury and mercury compounds                                    |                              | 1,000 mg/kg               |                               |                       |      |   |
|  | Polybrominated biphenyl (PBBs)                                   |                              | 50 mg/kg                  |                               |                       |      |   |
|  | Polybrominated diphenyl ethers (PBDEs)                           |                              | 1,000 mg/kg               |                               |                       |      |   |
|  | Polychloronaphthalenes (Cl >= 3)                                 |                              | 50 mg/kg                  |                               |                       |      |   |
|  | Radioactive substances   |                              | no threshold level        |                               |                       |      |   |
|  | Certain shortchain chlorinated paraffins                         |                              | 1%                        |                               |                       |      |   |
| Annex II**<br>(materials listed in the EU SRR)                 | Brominated Flame Retardant (HBCDD)                               |                              | 100 mg/kg                 |                               |                       |      |   |

<sup>19</sup> Please refer to footnote 19 on the "Form of Material Declaration" in the IMO Guidelines Resolution MEPC.379(80).

\* Hong Kong International Convention for the Safe and Environmentally Sound Recycling of Ships, 2009 (SR/CONF/45).

\*\* Regulation EU No. 1257/2013 of the European Parliament and of the Council of 20 November 2013 on Ship Recycling and amending Regulation EC No.1013/2006 and Directive 2009/16/EC/EMSA's Best Practice Guidance on the Inventory of Hazardous Materials, dated 2016-10-28.

\*\*\* Concentrations of PFOS above 10 mg/kg (0.001% by weight) when it occurs in substances or in preparations or concentrations of PFOS in semi-finished products or articles, or parts thereof equal to or above than 0.1% by weight calculated with reference to the mass of structurally or micro-structurally distinct parts that contain PFOS or for textiles or other coated materials, if the amount of PFOS is equal to or above than 1 µg/m<sup>2</sup> of the coated material.

<sup>20</sup> When samples are directly taken from the hull, average values of cybutryne should not be present above 1,000 mg of cybutryne per kilogram of dry paint.
